PROFILE

With a background in freelancing and two years at AnthroPi, a tech consultancy where I thrived as an autonomous contributor within a cross-functional team, I have developed a strong sense of rigor, adaptability, and clear communication — all essential to effective collaboration. Driven by curiosity and a genuine desire to grow, I am looking to take on ambitious projects and build a meaningful career path within a dynamic team.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Freelance

May 2025 – Present | Remote

- Front-end development of a SaaS career assessment platform (Jurni, Next.js): quizzes, dashboards, role-based access control, Stripe integration, and back-end contributions (Python/FastAPI, AI/LLM)
- Complete front-end redesign of marches-publics.com (Angular, Tailwind CSS), focusing on usability, performance, and maintainability
- UI/UX design and development of a showcase website for a craftsperson (Next.js): SEO optimization, contact form, and end-to-end deployment support
- Development of a dynamic form editor platform with iframe export capabilities: OAuth authentication, cross-functional collaboration
- Full-stack contribution to the MarineOpsAI project (industry-specific chatbot): front-end overhaul, document management, and UX improvements

Full Stack Developer — AnthroPi (start up)

Apr. 2023 – Apr. 2025 | Dijon (apprenticeship)

- Development and improvement of a call simulator aimed at call centers, along with its back-office interface (Angular + Node.js)
- Front-end and back-end feature development, PDF generation, and UI optimization based on Figma mockups from a UX Designer
- Data management and modeling (MariaDB), internationalization via MongoDB, bug fixes, and unit testing
- Maintenance, security hardening, and evolution of REST APIs: middleware implementation, route-level security
- Agile workflow using Scrum methodology (sprints, daily stand-ups, reviews) — task tracking via Asana and GitLab
